

CSCI 256 – Programming in Python

Program 5

Fall 2022

Programming Activity

Write a program that reads a string from the user containing his/her birthday in the form mm/dd/yyyy (e.g. 08/01/2004). It should print the date in the format August 01, 2004.

You can name your program **birthdayYourLastName.py**

```
# prompt for input birthday

# split date into month, day, and year

# change the date format and print it

# print Hotty Toddy! three times
```

Sample Output

```
Enter your birthday in the form mm/dd/yyyy: 08/01/2004

You were born on August 01, 2004.

Hotty Toddy!
Hotty Toddy!
Hotty Toddy!
```

Include header comments (i.e., **at the beginning of your file**) formatted as shown below. Your electronic submission of the program file will represent your endorsement of the Honor Code Statement.

```
# Course: CSCI 256, Section 1
# Student Name: Jane Doe
# Student ID: 12345678
# Program 5
# Due Date:

# In keeping with the Honor Code of UM, I have neither given nor
# received assistance from anyone other than the TA or the instructor.

# Program Description:
```

Notice: You need to submit **your program** in Blackboard. Click on **Program 5** link in Bb, click **Browse My Computer**, attach the program, and click **Submit**.
